

How do we clean recycled water?

Where do these words go?

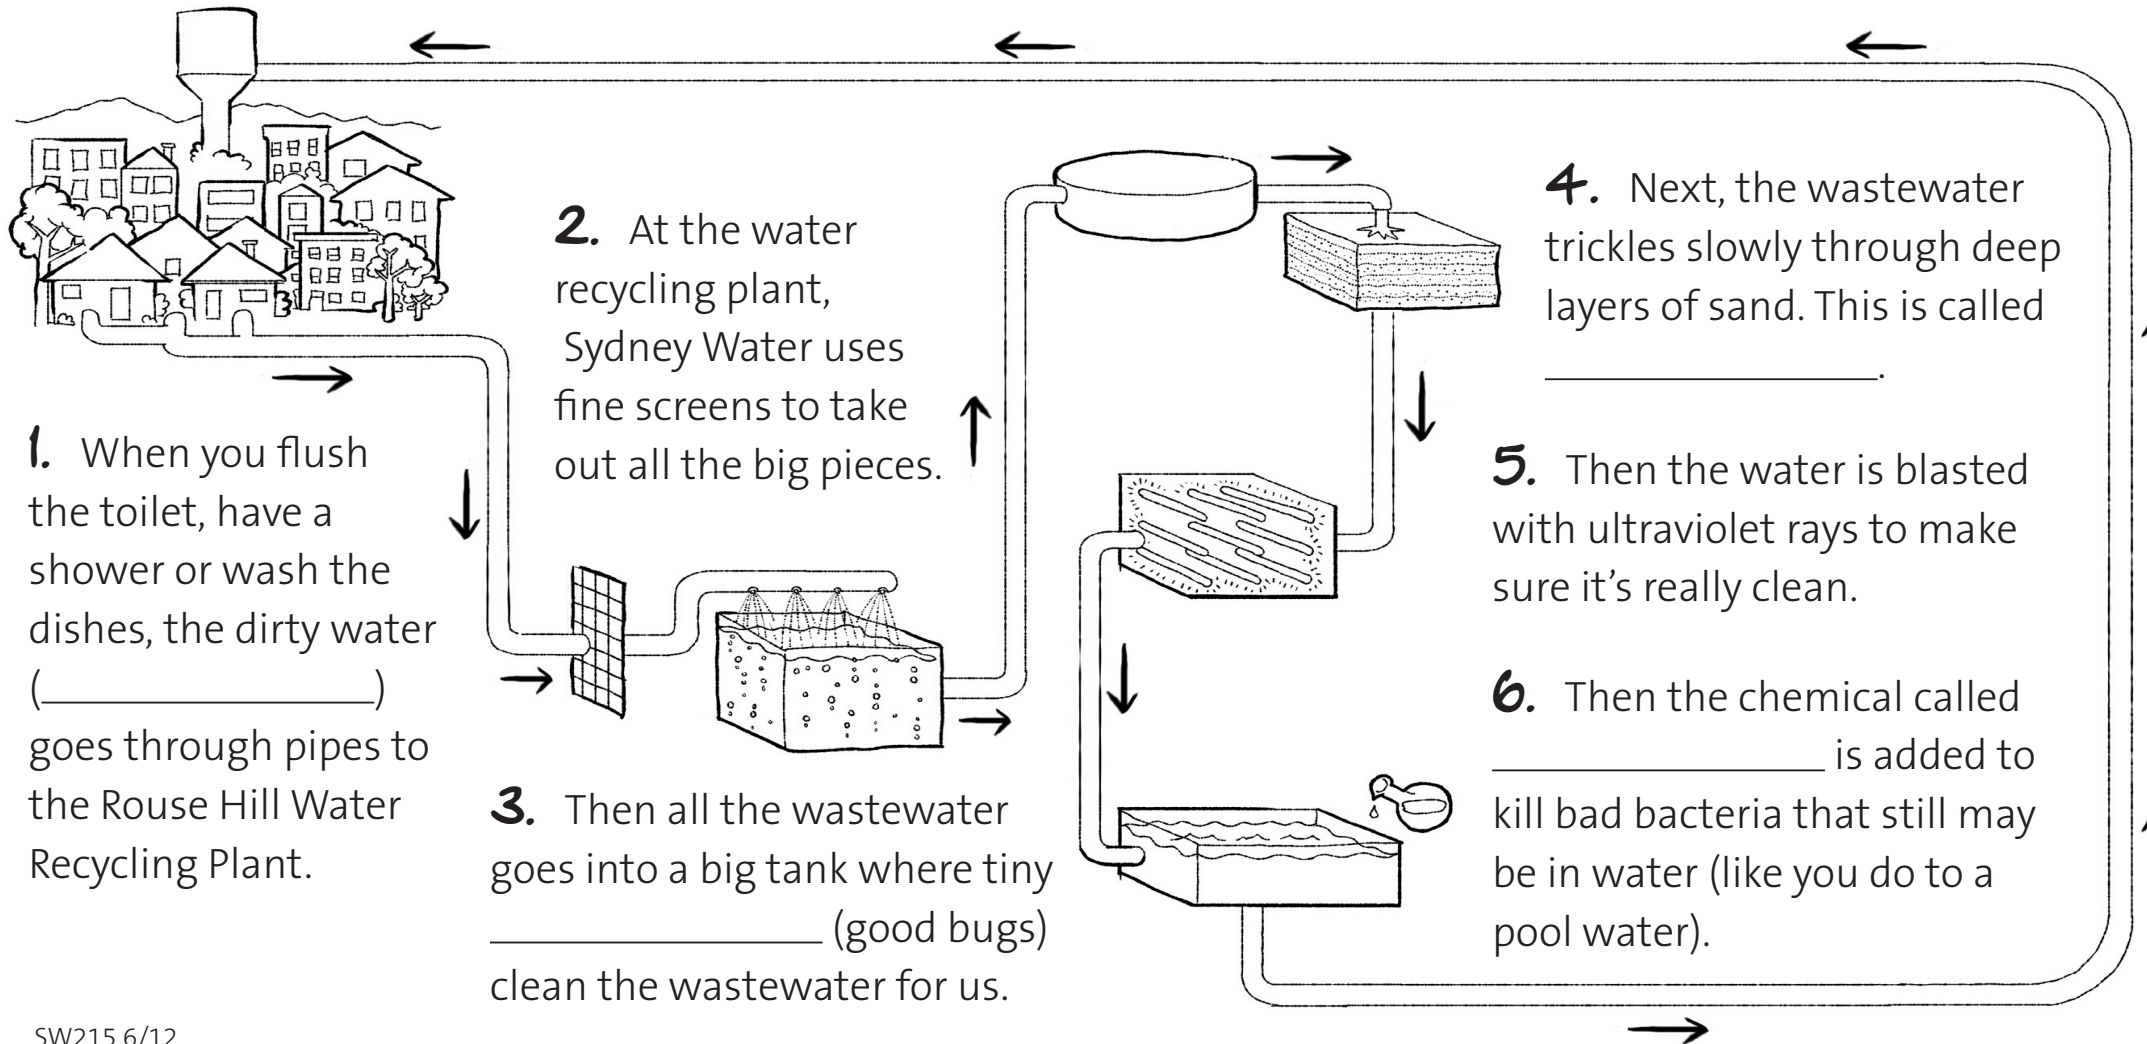

wastewater

filtering

recycled water

bacteria

chlorine

Find the purple tap

1. Find the water sources

- Find the recycled water purple taps and colour them purple
- Find the drinking water taps and colour them blue
- Find the rainwater tanks and colour them orange.

2. Draw a line to the water source for each item below

- watering your garden
- filling the pool
- drinking from a bubbler
- sprinkler on a sports field
- having a shower
- flushing the toilet
